

OFFICE OF FEDERAL ACTIVITIES WEEKLY REPORT

February 26 – March 2, 2018

Non-responsive: Material Unrelated to Bristol Bay / Pebble Mine

PROGRAM UPDATES (For AA Report)

Non-responsive: Material Unrelated to Bristol Bay / Pebble Mine

❖ NCD

- NCD is working with R10 to identify a path forward for cooperating agency status for the Pebble Mine EIS. At issue is the unusually narrow scope that USACE is proposing for EPA's involvement in the development of the EIS. R10 has asked OFA for support in coordinating with USACE HQ to ensure that EPA's special expertise can be brought to bear early in the EIS process so that project delays can be avoided. Kelly Knight 202-564-2141
